Ecommerce:	Bigcommerce, Wordpress, Mailchimp
English/Writing	This programmer **doesn't hate to type!** 100+ WPM, excellent grammar and spelling, proficient with Word, Excel, Powerpoint.

EMPLOYMENT

Sept. 2017 – present**:**   **Front-End Web Developer Intern,** Schawel+Coles E-commerce Agency

Responsibilities

- Build **UI theme customizations** within an **e-commerce software** codebase (Bigcommerce). Use the **Stencil CLI Framework** to design and test locally prior to updating a live storefront. Seamlessly insert new code into highly **modularized codebase**, integrating with existing file structure and CSS. Write **SASS** and **Handlebars.js** (dynamic templating).
- Develop **responsive HTML/CSS email templates** which promote their company's brand identity with a consistent appearance across all popular email clients. Build, test, and troubleshoot by using the web-based email editor **Litmus** to preview email templates in a wide variety of email clients such as Outlook, Apple Mail, and Gmail in Android. Find a optimal responsive solution when CSS media queries are not an option.
- Learn the structure of a **Wordpress theme codebase**, and begin building a custom theme.

EDUCATION

Bachelor's Degree in Computer Science, 2017 ▪ **4.0 GPA** ▪ Weber State University, Ogden, UT
Associate's Degree in Computer Science, 2015 ▪ **3.98 GPA** ▪ Salt Lake Community College, UT
Bachelor of Music in Piano Performance, 2002 ▪ California State University Northridge

Final project: Converted an existing non-profit website to a **responsive-design UI**. Developed easier, more **intuitive UX/UI** for registration and donation, emphasis on **mobile-friendly forms**. Programmed with **C#, ASP.NET MVC, jQuery, HTML, CSS**.

Relevant College Courses		
Android Development **(published app in Play Store)**	Object Oriented Analysis & Design	.NET Web Application Development
	Web Development	Intro to Linux
	Data Structures & Algorithms **(in C++)**	Network Fundamentals & Design
Scripting Languages **(bash, awk, sed, Python)**	Database Design & SQL	Computer Architecture **(Arduino)**
Digital Media Essentials	Advanced Database Programming	Computational Structures
Object Oriented UI Dev. with Java	Software Engineering I & II	Technical Writing

AWARDS & SCHOLARSHIPS

C&K Holbrook/Microsoft/Women in Computer Science Scholarship, 2016
Outstanding Student Award, 2017, Weber State University Computer Science Department
Outstanding Student for Computer Sciences & Information Systems, 2015-2016, SLCC
Continuing Student Tuition Waiver, Fall 2014 – Spring 2016, Salt Lake Community College
Departmental Tuition Waiver, Spring 2013 - Spring 2014, Salt Lake Community College, Business Dept.
